INTRODUCE NEW ELECTRO-MEDICAL, X-RAY EQUIPMENT

PRODUCES SUPERSONIC THERAPEUTICAL APPARATUS -- Berlin, Nachrichten fuer Aussen-  
 handel, 6 Sep, 9 Sep 50

The electro-medical department of the people-owned Transformer and X-Ray  
 Apparatus Plant in Leipzig has started mass production of a new supersonic  
 therapeutical apparatus which will be used to treat rheumatic skin diseases,  
 among other ailments.

The same plant also constructed an X-ray apparatus for metal-testing, mass  
 production of which has already started. At present, research is being conducted  
 on an apparatus for testing materials in shipbuilding, engine construction, and  
 other heavy industries.

Transformers built in this plant up to the present were for up to 25 million  
 volt-amperes; now it is planned to build such installations for up to 60 million  
 volt-amperes. In addition, it is planned to produce high-frequency equipment.

DEVELOP NEW CONTINUOUS X-RAY -- Berlin, Nachrichten fuer Aussenhandel, 26 Aug 50

The People-Owned Enterprise for Optics and Radiology in Gera has constructed  
 an oil jacket for universal diagnosis which permits continuous X-ray operations.  
 The newly developed apparatus is especially helpful when a number of X-ray ex-  
 aminations are made at the same time.

This establishment at present is the second largest of its kind in East Ger-  
 many and produces 200 X-ray tubes monthly.
